COO, Andolasoft

My Pill Reminder App

Too many people struggle with remembering when it's their medicine time. By leveraging the technologies, Andolasoft has brought "My Pill Reminder App" that helps to remind you about your medication time, on time.

We conceptualize a mobile app that uses the Alarm Ringing system to prevent the patients from missing their medication for the day.

About the App

My Pill Reminder is a free-to-use Android Application, developed by Andolasoft, that allows users to set reminders for each medicine dosage within this application.

With the custom input fields, users can input their medicine details like Medicine Name, Description, Date, Time, and set reminders for multiple medicines at different time intervals.

Problems without My Pill Reminder

- ✔ Forget to take medicine dose due to busy schedules
- ✔ Forget about dosage like OD, BD, After Food, Before Food
- ✔ Took the wrong medicine
- ✔ Multiple persons taking multiple doses of your family
- ✔ Forget to take medicines that have a long gap
- ✔ Not able to track intake of sports supplements
- ✔ Not able to maintain the frequency of Birth Control Pills
- ✔ Not sure about the intake of Vitamins
- ✔ Not able to figure out the overdosage
- ✔ Medicine intake irregularities
- ✔ Reactions due to the overdosage
- ✔ Not able to refill the recurring medicines

My Pill Reminder App
